

St. Hilary Catholic School Monthly Newsletter September 2019

WOW!! What a busy month it's been!! It's hard to believe that September has come and gone so quickly. All of the students have been setting into their new routines and classrooms. It's wonderful to walk around the building and see all of the great work that they have been doing proudly displayed.

Please remember the vital role that you play in your child's success at school. You can help by asking your child about their day and having a positive attitude about school and learning. Also, never underestimate the power that reading with your child for 20 minutes each night can have for his/her reading and language skills.

Your Partner in Education,
Angela Gainer, Principal

Calling All Families

Once a week, Take a peek

Anyone can get head lice. They crawl from head to head. Head lice is not a health hazard, but it can cause itching, extra work for parents and misuse of insecticides.

Check your child's head once a week for head lice. Check the whole head through clean, wet, untangled hair (especially around the ears and back of neck) using a fine-tooth comb or your fingers .

If you are not sure what to look for or how to deal with lice, visit TBDHU.COM/schools or call 625-5972.

Everyone needs to work together to fight the spread of head lice!
