

## **Policy: Student Transportation by Staff Or Other Volunteers**

To ensure the Catholic nature of our system by strengthening the link among the home, school and Catholic church, the Board welcomes staff and other volunteers to become involved in student transportation to provide a quality Catholic Education for all students.

The Superior North Catholic District School Board encourages staff to hire licensed carriers to transport students to School Board approved functions such as co-curricular and extra-curricular activities.

Where this is cost prohibitive due to the number of students to be transported or the distance involved, the use of volunteer drivers, rental vehicles or private vehicles may be considered.

The Board assumes responsibility on behalf of employees, volunteers, Trustees and others for the legal liability or losses arising out of the use of their own vehicles or another person's vehicle on Board business.
